OVERVIEW

Enthusiastic MERN Stack Developer with expertise in React.js, Node.js, Express.js and MongoDB. Experienced in building scalable web applications, integrating APIs and implementing secure authentication (JWT). Proven ability to develop real-world projects with a strong focus on problem-solving and intuitive UI/UX design. Committed to writing clean, efficient code and keeping up with the latest web technologies.

EDUCATIONAL QUALIFICATION

Institution	Degree/Qualification	Percentage/CGPA	Batch
National Post Graduate College	Bachelor of Vocational Software Development and E-Governance (Equivalent– BCA)	7.6 CGPA	2022-2025
MMIC Inter College	Class XII	74%	2021-2022
Mount Glory Maple Public High School	Class X	64%	2019-2020

INTERNSHIP EXPERIENCE

Remote Sensing Applications Centre. | Lucknow, Uttar Pradesh | PERN Stack Internship   Jan 2025–March 2024

- Successfully enhanced my **full-stack development skills** at Remote Sensing, refining best practices in web development and gaining hands-on experience in building scalable applications.
- Independently developed **RSAC-WEB,** a full-stack web application handling everything from **frontend UI/UX** to **Backend logic, system design, testing and deployment**, reinforcing my expertise in web application architecture.
- Designed and implemented key features in RSAC-WEB.

PD workforce Developers.| Lucknow, Uttar Pradesh | PowerBI Internship

- Created interactive dashboards in Power BI to analyze credit card payment defaults based on age, gender, marital status, and education.
- Conducted an in-depth analysis using Power BI, revealing that females, particularly those aged 20 to 30, are more likely to default on payments, while identifying that marital status has minimal impact on defaults. Highlighted the correlation between higher education levels and reduced default rates.
- Utilized ratio count cards and slicers in Power BI for detailed data representation, providing clear insights into default factors.

PROJECTS

- **Amazon Clone**- An **Amazon** is a web or mobile application designed to replicate the features and functionality of Amazon, one of the largest commerce platforms.
- **World Atlas**- A **World Atlas** is a web or mobile application that replicates the features of a digital atlas, providing users with geographical information about countries, continents, and global features.
- **Microsoft Clone**- A **Microsoft** is a web or mobile application that mimics the core features and design elements of Microsoft's website or ecosystem.

SKILLS

Frontend- React.js, Tailwind CSS, Bootstrap, HTML, CSS, Javascript.

Backend- Node.js, Express.js, Mongoose, MongoDB, REST API, JWT, Strapi.

Additional- Git/GitHub, Postman, MS-Word, MS-PowerPoint.

Core Competencies- Analytical Skills, Logical Reasoning, Problem Solving, Critical Thinking, Design and Development, Adaptability, Multitasking, Virtual Work Adaptability, Online Research and Data Collection.
